1794

MAIL DATE

DELIVERY MODE

07/18/2008

PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Advisory Action

1. The proposed amendment has not been entered. The new limitations of "unstretched" and "at least one of R₁, R₂, R₃ and R₄ is a polar functional group, the others are non-polar functional" presents new issues that requires further consideration and search. Furthermore, since the limitation of "non-hydrocarbonaceous polar group" was an alternative recitation as part of a Markush group, it was not part of the rejection of record. As such, Applicant's amendment would require a new rejection to address this limitation.
2. Applicant's arguments against the valid use of the prior art combination of Oshima in view of Hashimoto are directed toward the new limitations, and are therefore not addressed in this advisory action.

Any inquiry concerning this communication should be directed to Sow-Fun Hon whose telephone number is (571)272-1492. The examiner can normally be reached Monday to Friday from 10:00 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Keith Hendricks, can be reached on (571)272-1401. The fax phone number for the organization where this application or proceeding is assigned is (571)273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
